Set out a grid with chairs or tape. The size would depend on your group size. Mark it with slips of paper - cut out from above

Players form teams of 2-3 per ship & take up a position on the grid in adjacent squares.

2 players act as the enemy and sit behind a screen with a paper grid and pencil. They call out a square e.g. D4 and mark it on their paper grid.

The player with that grid number should then call out 'hit'. Their ship is damaged. When the last member of their team gets hit, their ship is sunk.
