**Shade in the squares for your ships**

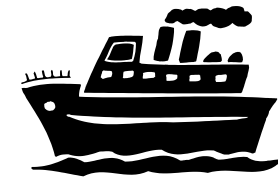

1 Aircraft carrier takes up 5 squares

1 Destroyer 4 squares

1 Cruiser 3 squares

1 Submarine 3 squares

1 Mine sweeper 2 squares

### To play

Take it in turns to call out a square e.g. D4

Everyone then puts cross through that square.

Anyone who has a ship in that area HAS to declare it (or be disqualified at the end for cheating!)

The next caller will then try to hit that ship again and so on until it is sunk. This also must be declared.

When all your ships have been sunk you are out of the game.

The last person remaining is the winner.
